

## On Tuesday, June 1st, The Rockefeller Foundation announced an updated Action Plan for Global Covid-19 Vaccination Efforts

### Background

Nothing is more urgent than expanding global vaccination for Covid-19 to countries that do not have access today. Saving lives, and getting back to our lives, depends on the G7 and other wealthy nations supporting equitable vaccine distribution by funding the \$9.3Bn needed for the Covid-19 Vaccine Global Access Facility – more commonly known as COVAX – to vaccinate the world.

Stopping the spread of the Covid-19 pandemic requires that all countries have equal access to Covid-19 vaccination. A new report by The Rockefeller Foundation, [One for All: An Updated Action Plan for Global Covid-19 Vaccination](#), an update of the [first report](#) in April 2021, offers a 5-point action plan to get vaccines to everyone in the world.

### Our Ask

We hope you will join us on social media to make the case for vaccinations for all, especially ahead of Gavi, the Vaccine Alliance's June 2nd 2021 Summit to raise the necessary support for an additional 1.8 billion doses of vaccine for 92 low- and middle-income countries around the world. This document contains social media messages and graphics that can be used to amplify the findings of our latest Action Plan.

To overcome this pandemic, we're counting on @G7 & wealthy countries to fund \$9.3Bn for #COVAX & @GAVI. This will unlock 1.8Bn vaccine doses the world needs now.

It's possible with the financing models in @RockefellerFdn's new plan.

📣 @G7 leaders, will you step up to get #COVAX & @GAVI the additional \$9.3Bn needed for #MeetingThisMoment now?

We must vaccinate the 🌍 for our work, sacrifice & investment towards ending the pandemic to be effective. Here's how, via @RockefellerFdn:

Over 80% of #Covid19 shots have gone to high-income countries so far.

This inequity leaves the pandemic to spread unchecked elsewhere and us all at a risk of continued variants. Here's how we vaccinate the world, via @RockefellerFdn:
